

UNDERGRADUATE DEGREE PROGRAMS
HIGH QUALITY TRAINING
From intake commencing 2014

Level of Training: UNDERGRADUATE
Major: ACCOUNTING
Mode of Training: FULL-TIME

1. Program objectives

- General objectives

We aim to train accounting bachelors who are highly aware of professional ethics and obtain high professional competence in the field of accounting. Graduates can also achieve English proficiency to work in their specialization after graduation.

The program equips students basic knowledge in the fields related to accounting career, especially financial accounting, managerial accounting, financial analysis and tax. Moreover, the students are also provided with basic business knowledge in the market economy with current globalization trend. The program will build the foundation for students' future success and career development. Also, the program aims at self-research ability so that after graduation, the students can work independently.

- Job opportunity

Graduates with accounting major can undertake accountant positions and even chief accountant or finance manager in a long run. Besides, accounting graduates can work at auditing companies, at commercial banks as financial analyst or at tax authorities and other economic entities.
